

OCTOBER 2018

the Osprey Review

MS. KRISTIN & MS. SARA

UPCOMING DATES

October 5, 12, 19, 26

Early Release-
Parent Conferences

October 15

Professional Day-
No School

October 26

Pizza Friday
Early Release-
Parent Conferences

October 31

Historical Halloween

WHAT WE LEARNED LAST MONTH

1

Phonics Drawers
Capital Letters
Addition Strip Board
Time :00
Expanded Notation

2

Parts of a sentence
Sentence Rules
Add. Snake Game
Time :00, :15
Word Problems
Using a Dictionary
Using a Thesaurus

3

Sub. Snake Game
Parts of a Sentence
Word Problems
Using a Dictionary
Using a Thesaurus
Time :00, :15, :30
Multiplication Board

SNACK REMINDER

Oct. 8

LB

Oct. 16

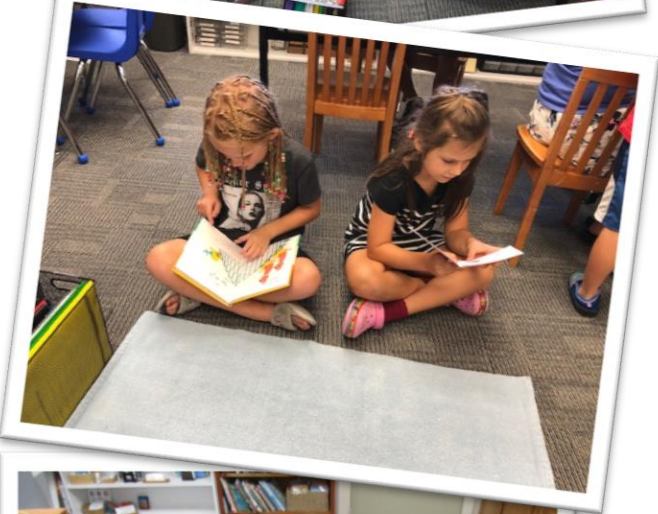

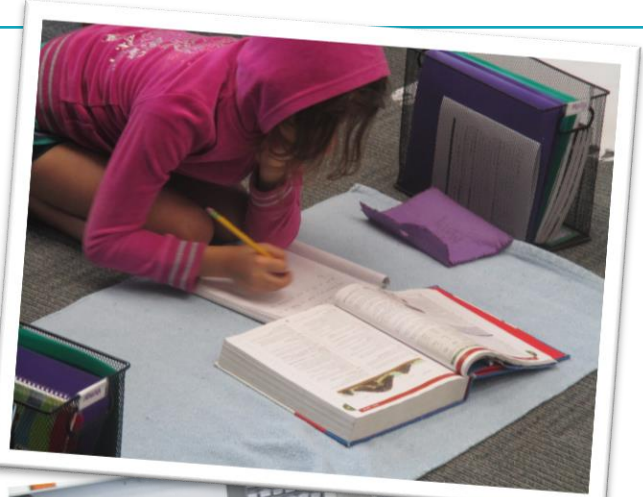

Kavan

Oct. 22

Ahana

Oct. 29

Marleys

MONTESSORI MINDFULNESS

Cosmic education – Maria Montessori urged us to give elementary-level children a “vision of the universe” to help them discover how all parts of the cosmos are interconnected and interdependent. In Montessori schools, these children, ages 6 – 12, begin by learning about the universe, its galaxies, our galaxy, our solar system, and planet Earth—everything that came before their birth to make their life possible. As they develop respect for past events, they become aware of their own roles and responsibilities in the global society of today and tomorrow.
