Zolina

**Oct. 14**  
Olivia

**Oct. 21**  
Roland

**Oct. 28**  
Noah

**MONTESSORI MINDFULNESS**

Concrete to abstract – A logical, developmentally appropriate progression that allows the child to develop an abstract understanding of a concept by first encountering it in a concrete form, such as learning the mathematical concept of the decimal system by working with Golden Beads grouped into units, 10s, 100s, and 1,000s.
