

Good afternoon, Seahorse Families,

I want to share the updates in our schedule, care for our work rugs and songs in different languages.

**Work rug:**

The students received rugs to work with big lessons/rug lessons. We are continuing the same as last year; every child got a work rug, and on **Fridays**, your child will bring the rug along with the cleaning towels home to wash. Would you please make sure you are cleaning the rug and towels and sending it back on **Monday**? The Montessori work rugs are expensive and need **gentle care**.

**Enrichment classes:**

This week, we started two new enrichment classes for the afternoon: Music and yoga. The art class will begin in two weeks. Please find the attached document for our updated daily schedule.

**Songs in different languages:**

The songs are one of the great ways to teach young children, and they also help them feel safe and calm. We play songs during circle time. If your child speaks a different language at home, could you please share a song in that language, which your child is interested in listening to at home? For example, a good morning song, goodbye song, saying hello, etc.
